# smart nation

## Smart MCB

Ultimate Control, Maximum Safety!

Effortlessly connects via WiFi, eliminating the need for additional hubs.

Monitor and manage your smart MCB from anywhere in the world

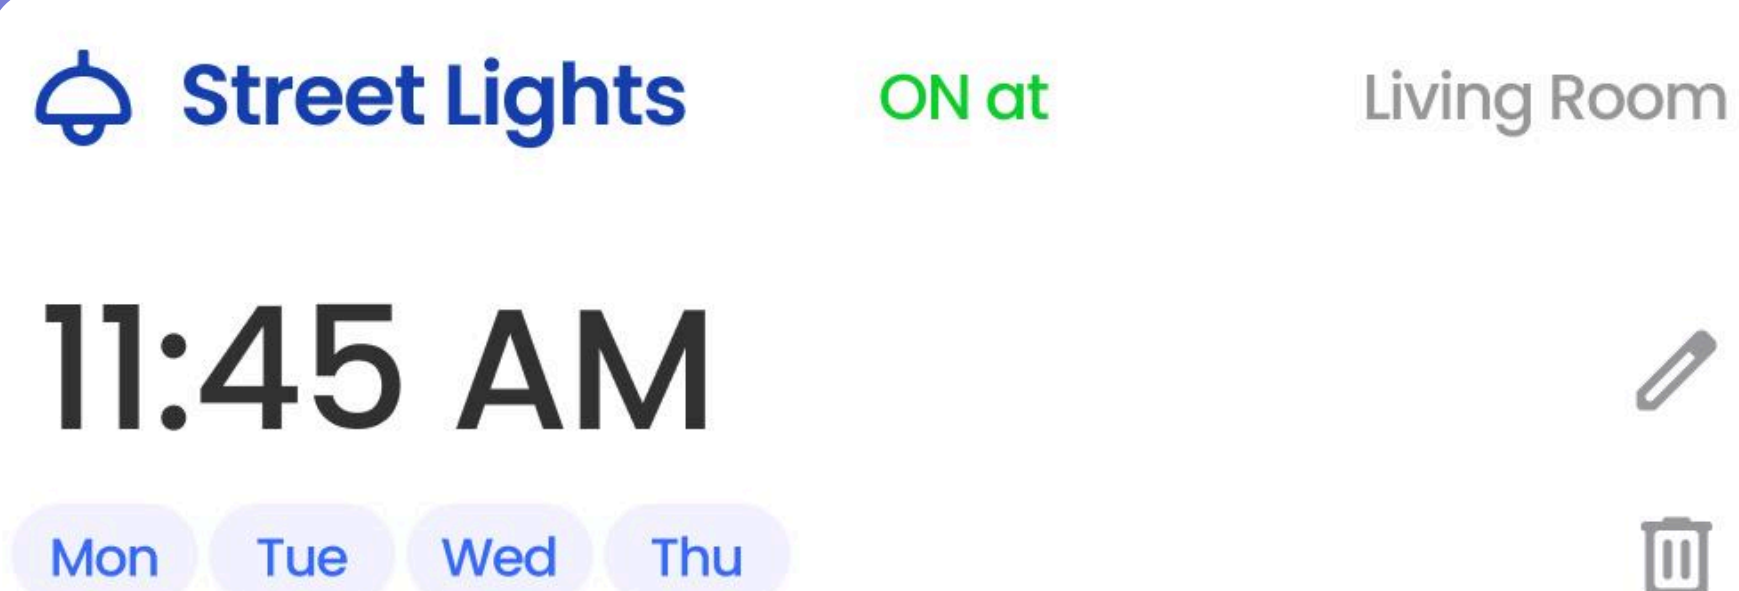

Automate MCB operations by setting customized schedules

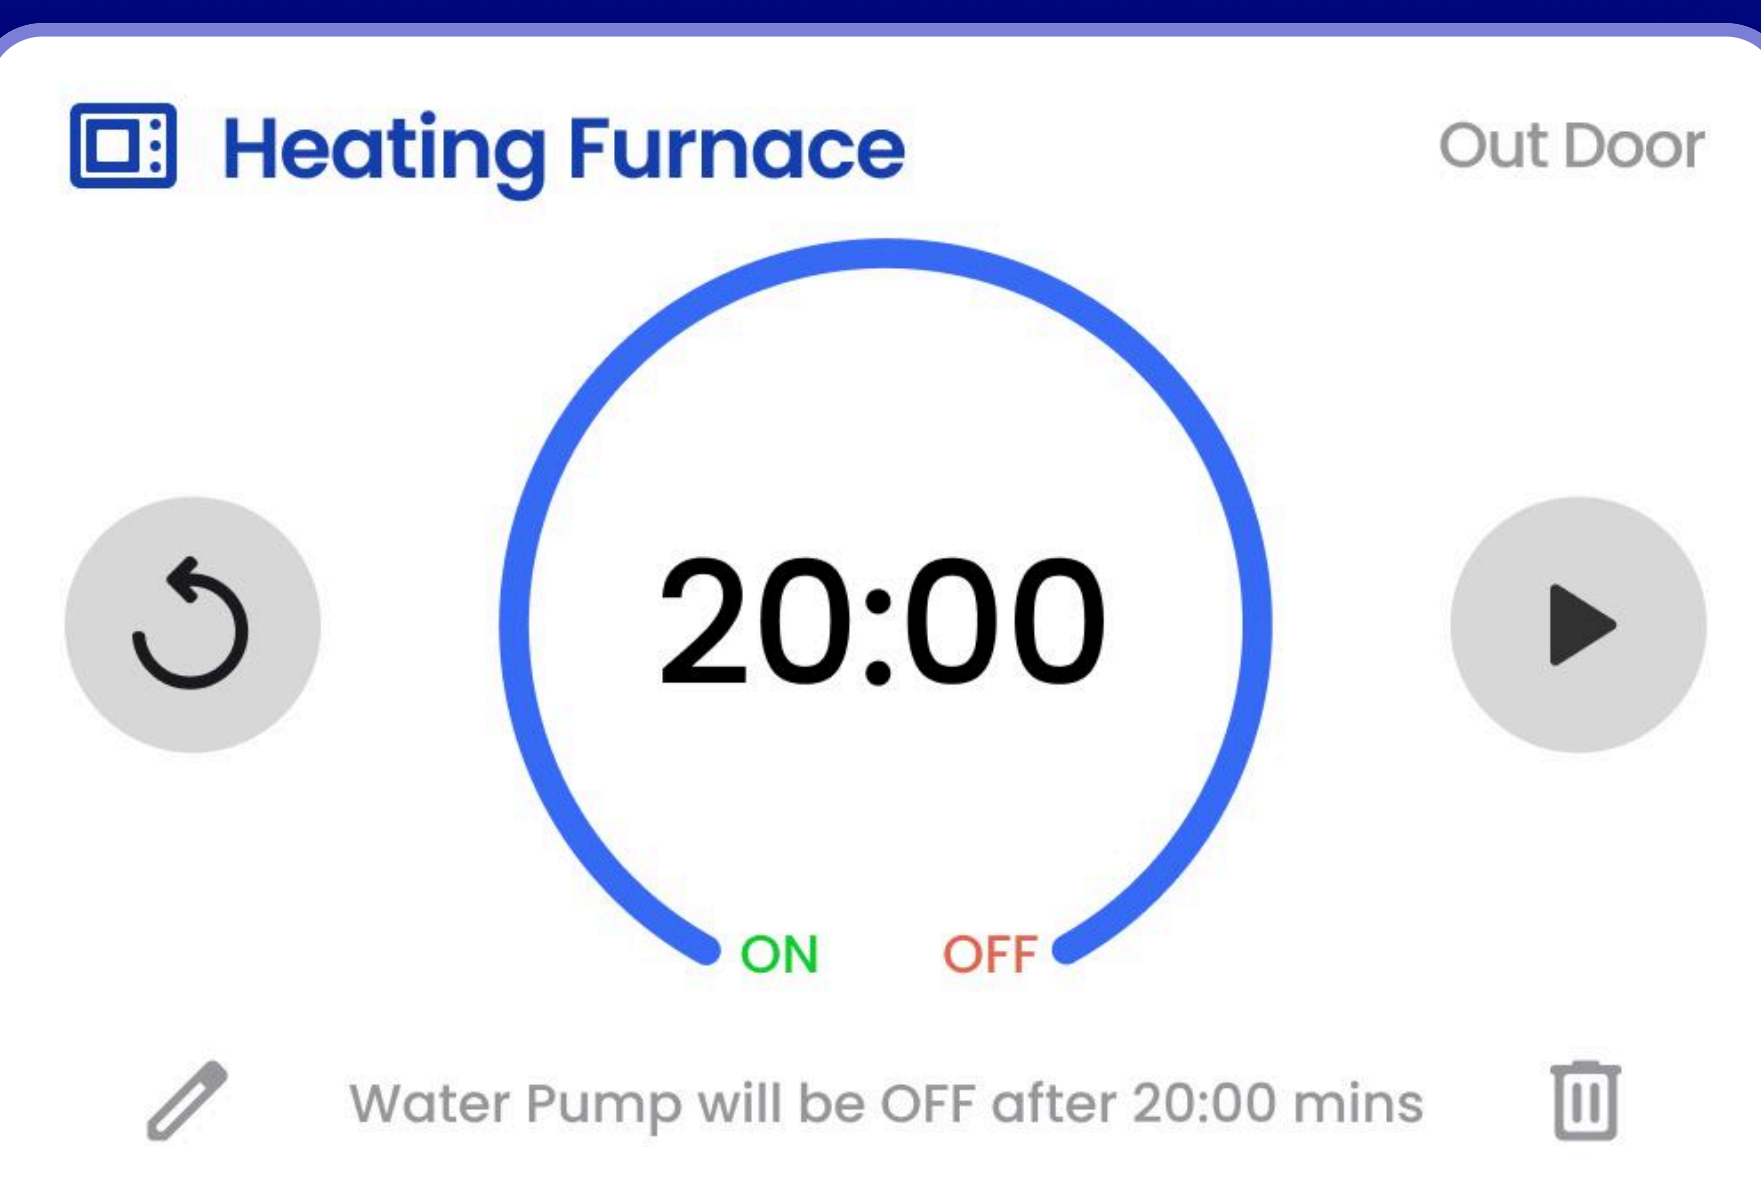

Smart Nation app to control MCB is available on iOS & Android

## Automation

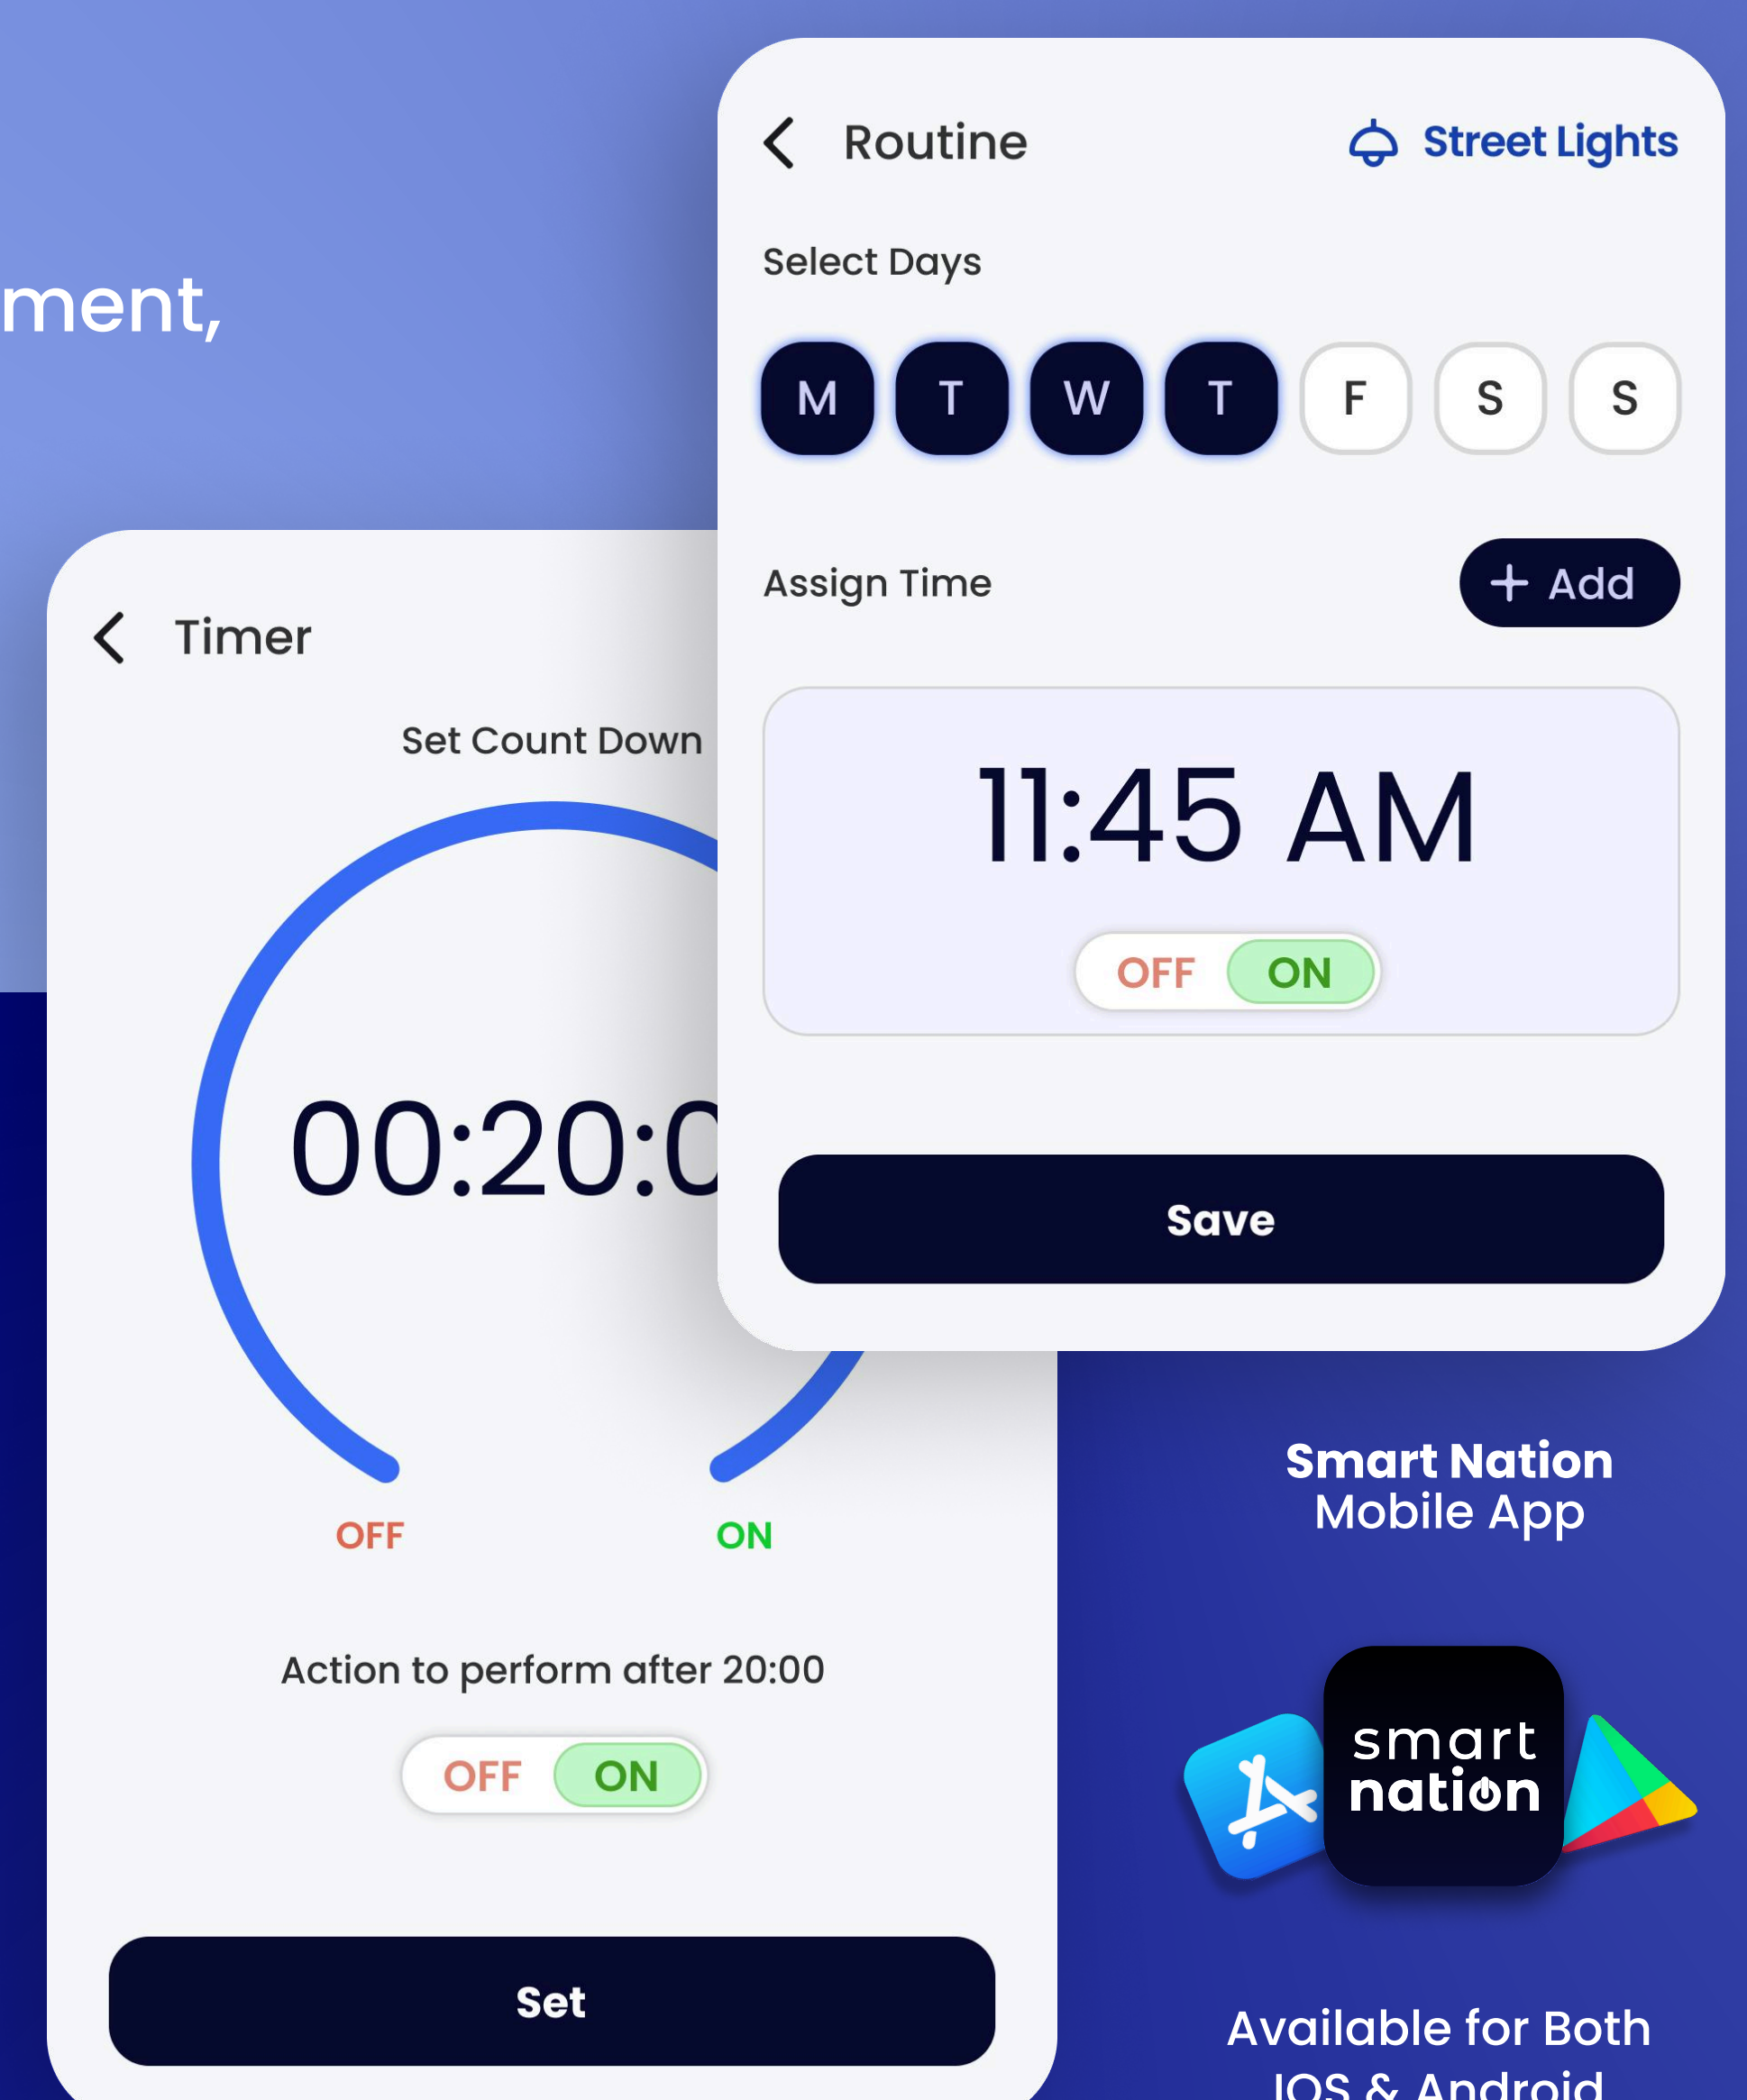

### Routine

Set up daily or weekly schedules for industrial equipment, furnaces, high-mast lights, and other systems to turn on or off automatically. Perfect for **managing energy usage** and enhancing **convenience**!

### Timer

Need to turn off your Appliance after a certain time? Simply set a countdown timer, and the **Smart MCB** will handle the rest!

Smart Nation Mobile App

Available for Both iOS & Android

## What do you want to Control & Automate?

Industries

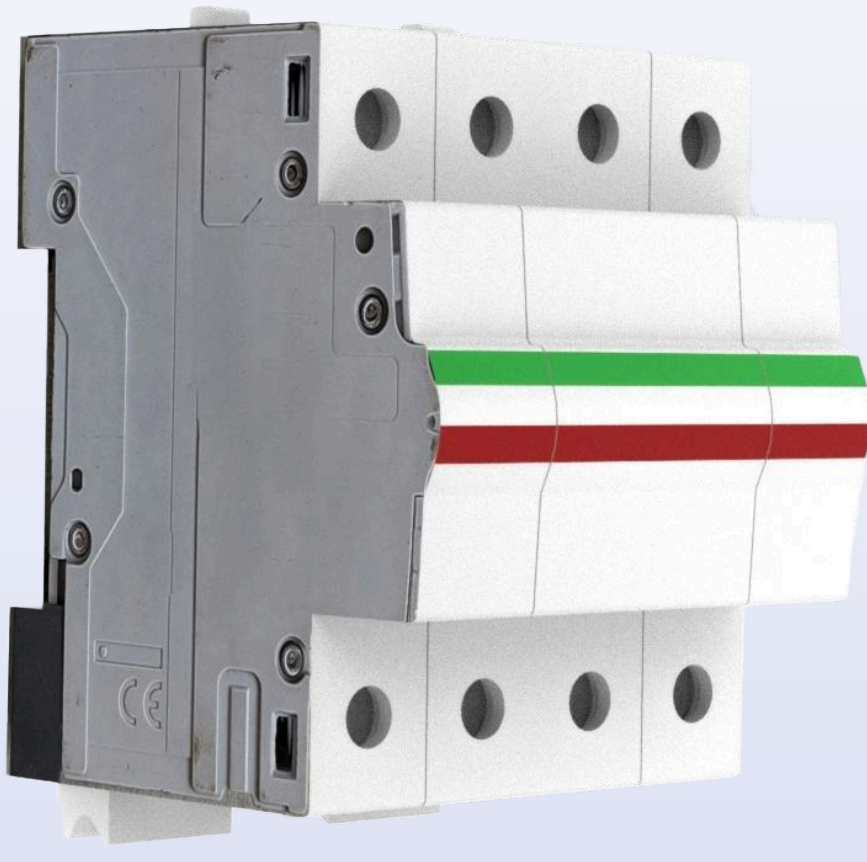

Street Lights

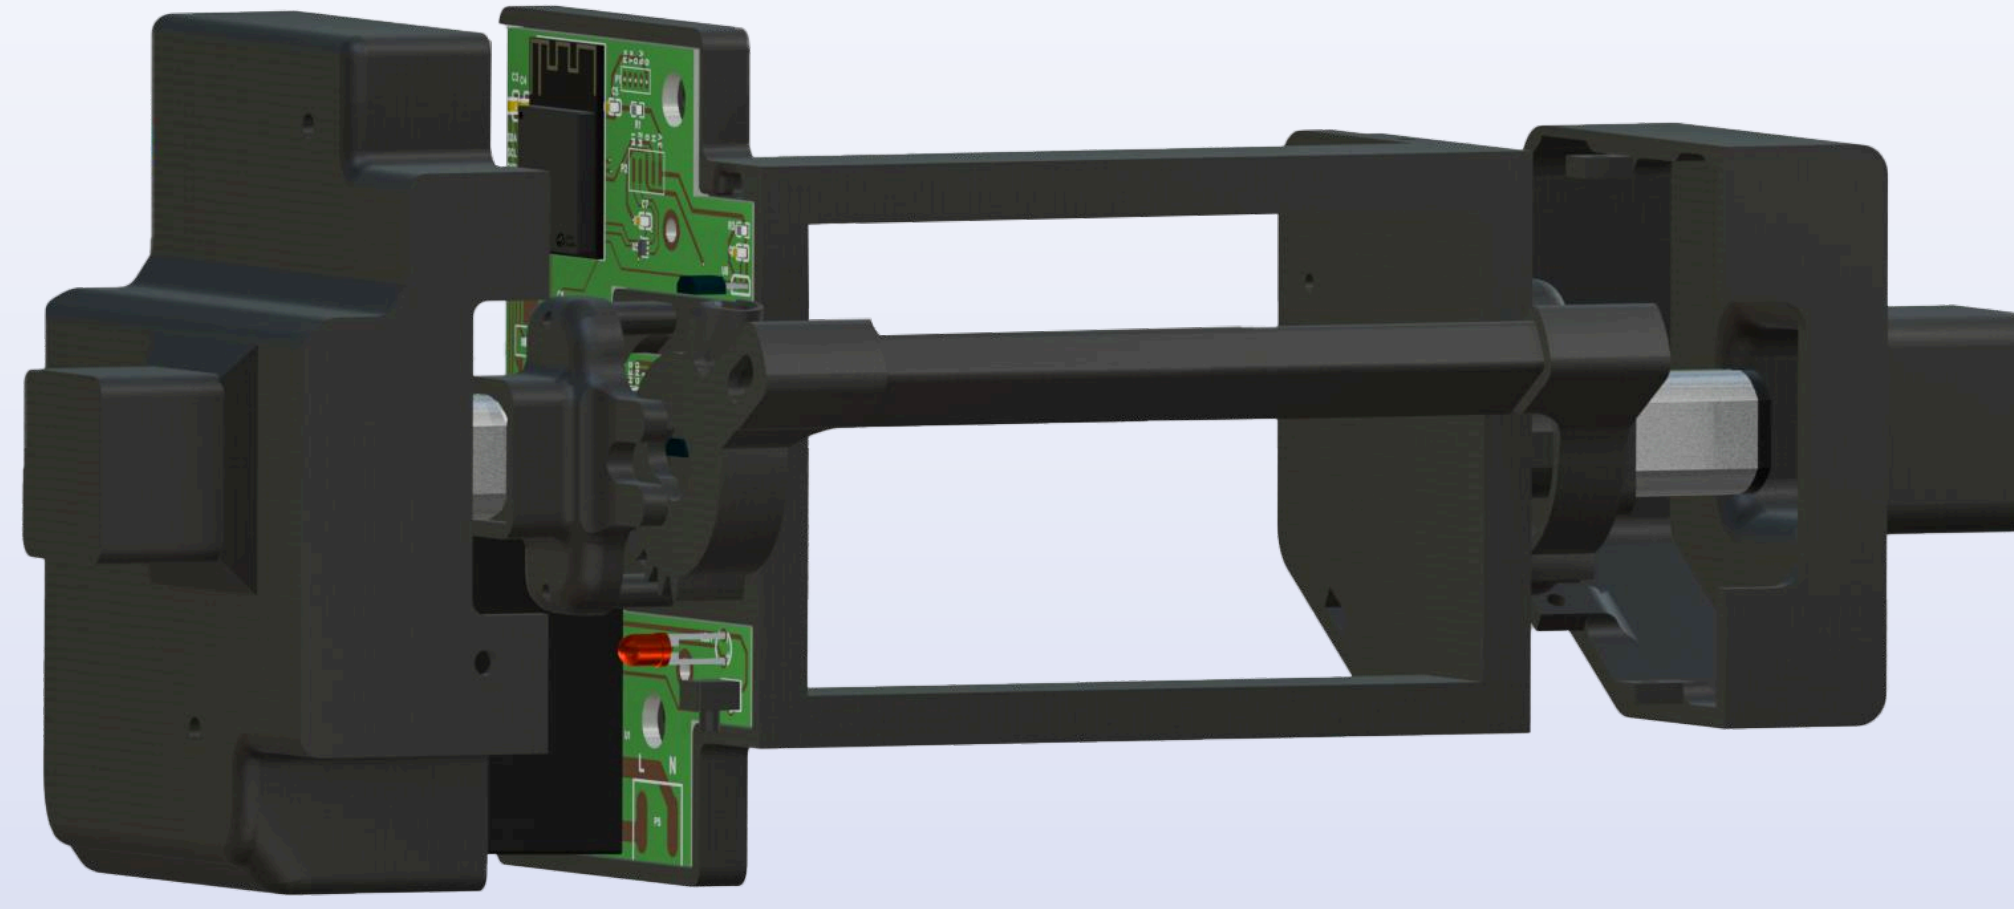

High Mast Lights

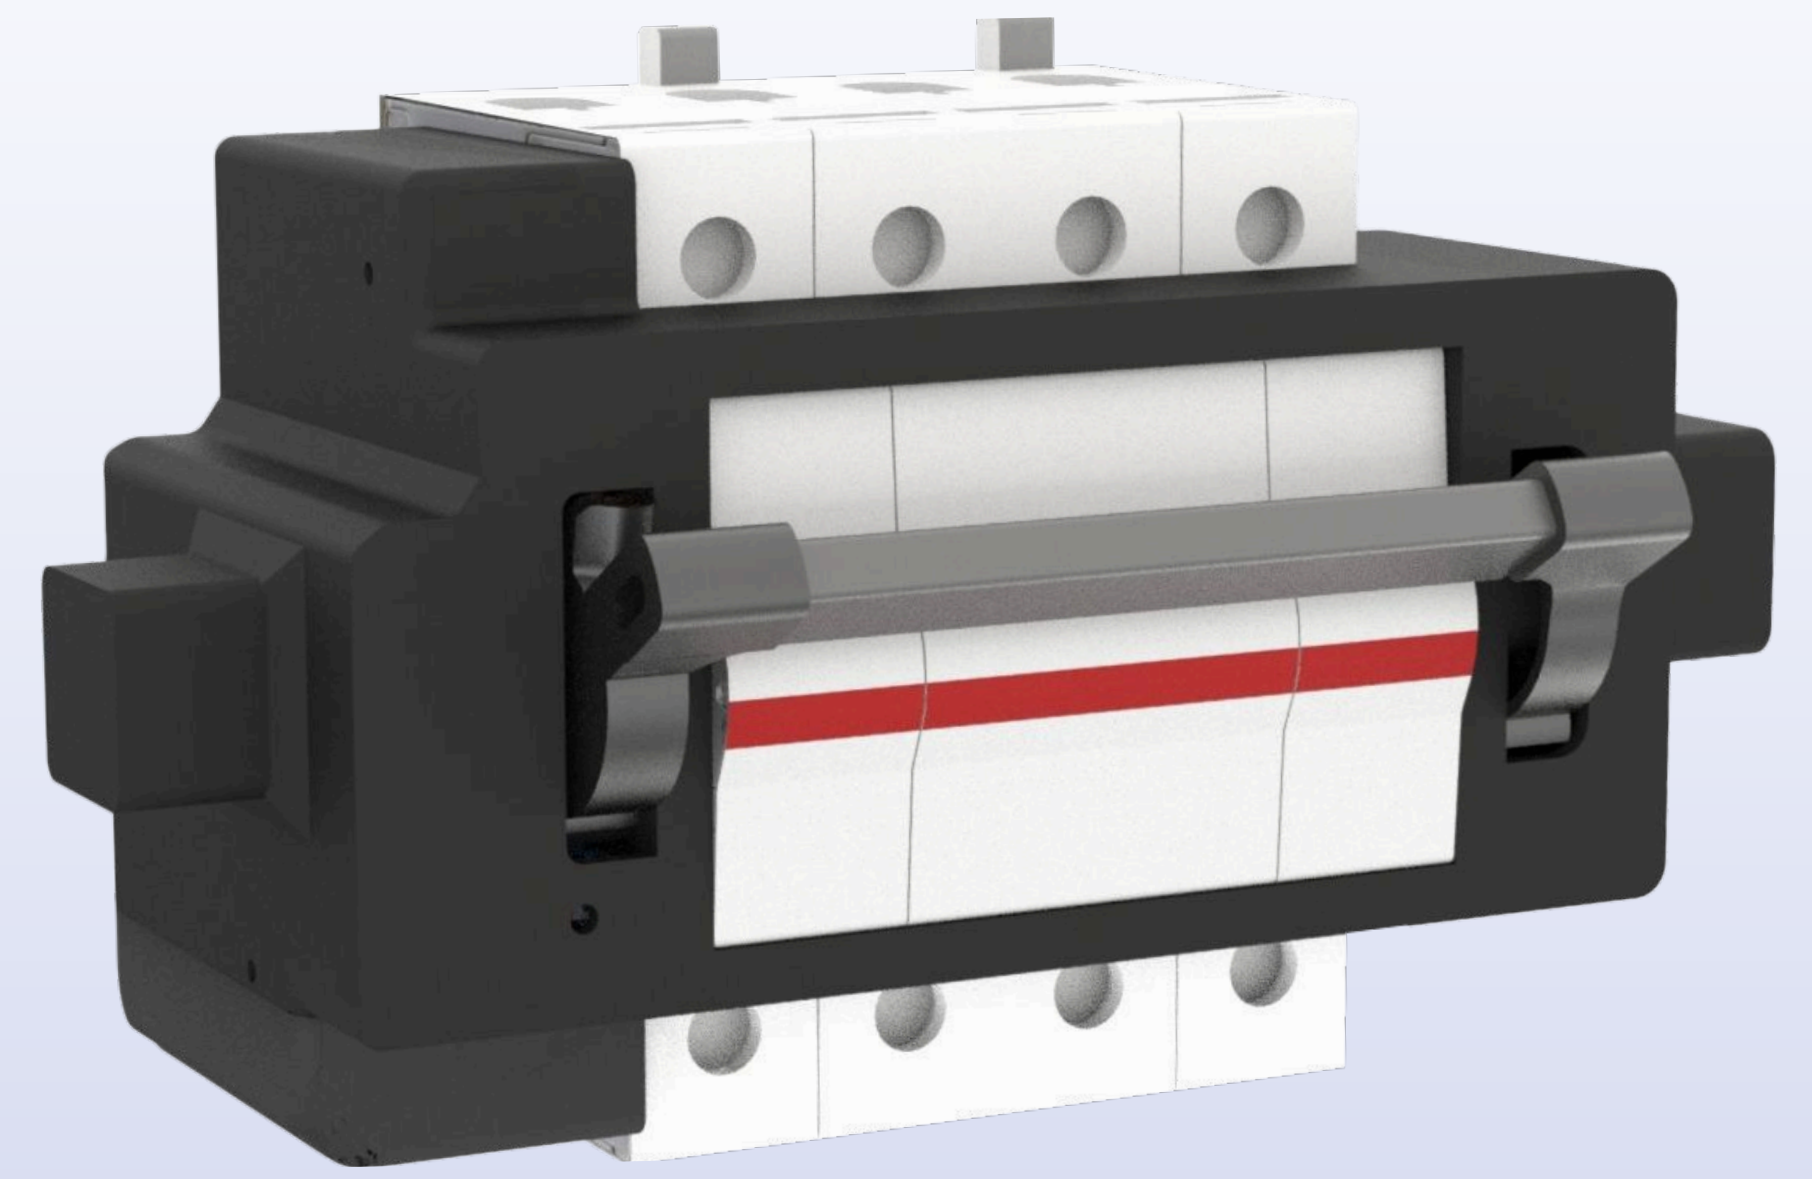

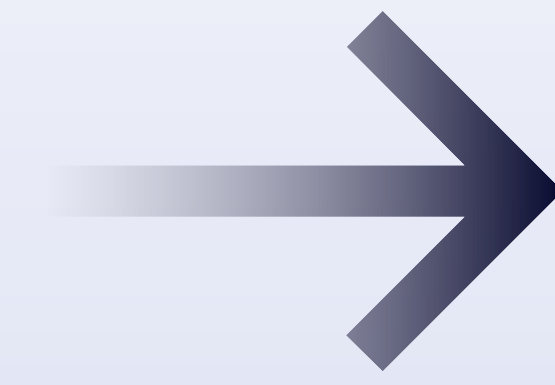

Your regular MCB

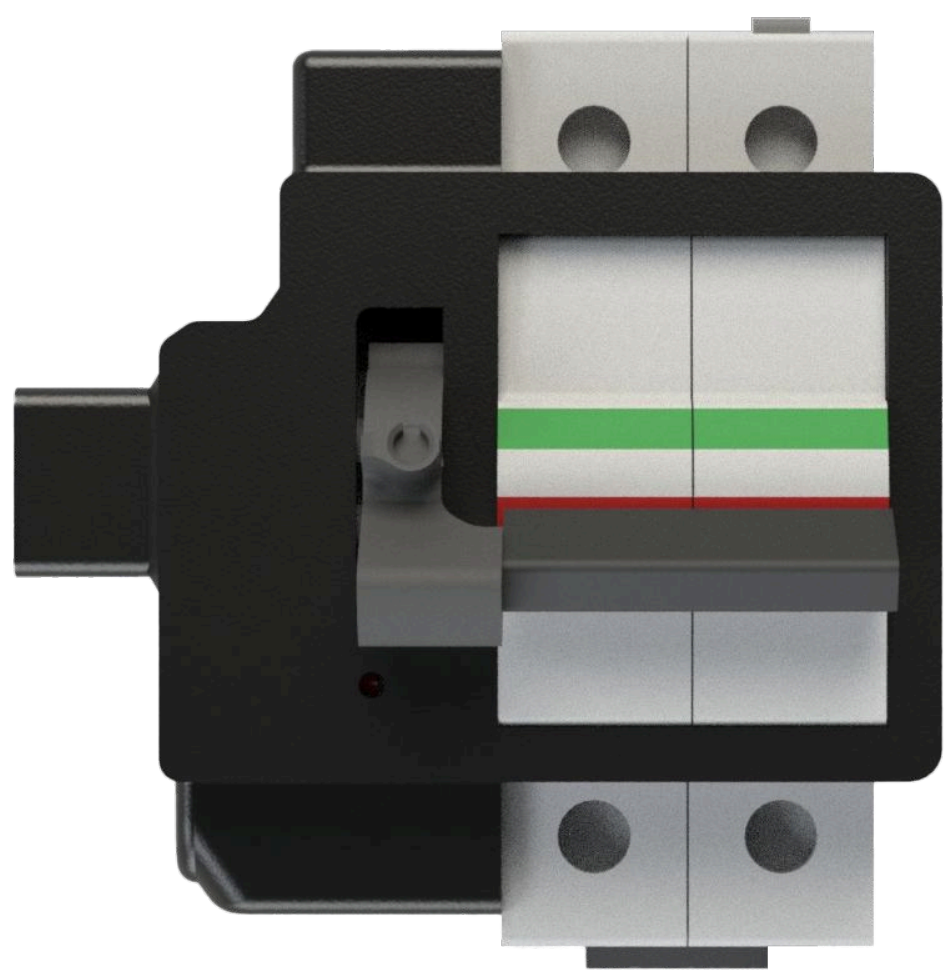

Safe and robust IoT automation hardware that  
can withstand upto 305V AC

Smart MCB

## 2Pole

Poles: 2 Poles, Single-phase MCB  
Load Capacity – 20A, 32A, 40A

Operating temperature: -25 ° C ~ +65 ° C

Communication: WiFi Based 2.4GHz

Communication Module: WiFi Module

Works with: Mobile app or Cloud Platform

Device Security: 128-bit AES encryption in Payload

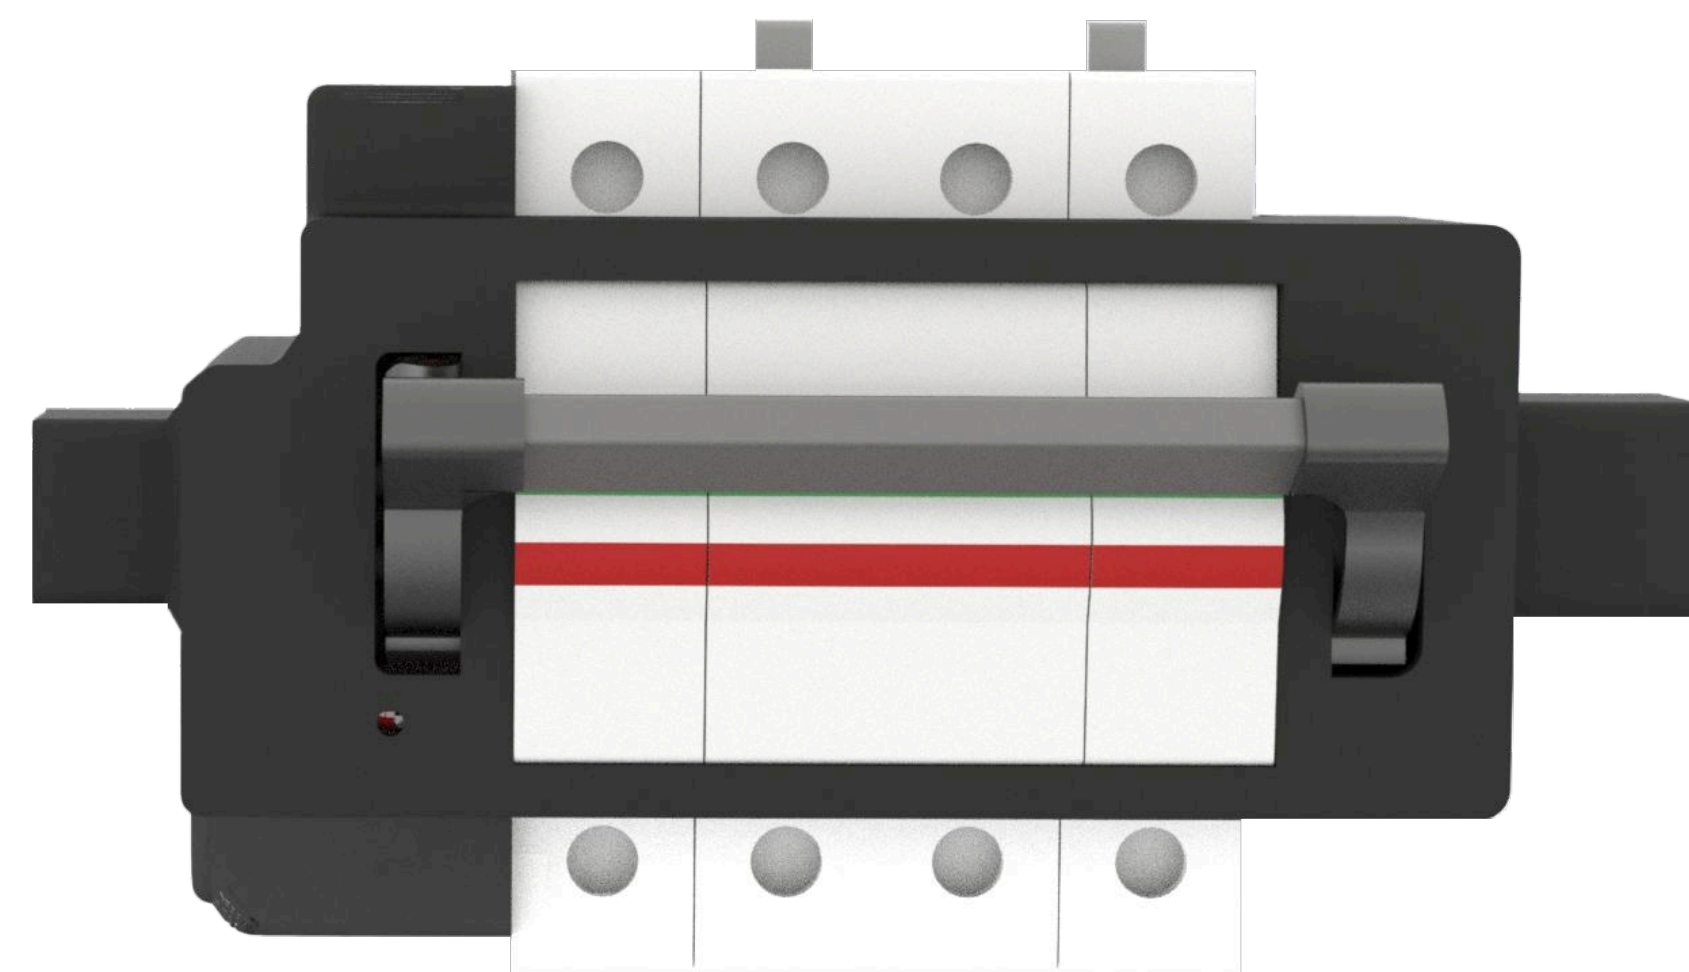

Both Manual and Remote operations supported
